

2012 ASVAC Training Schedule

January: Pediatric Emergencies. Guest speaker:

Dr. Robert Best, Pediatric Emergency Medicine, NY Presbyterian/Columbia

February: CPR Certification.

March: CPR in Transit.

March: AMS, Stroke, Burns, Shock.

April: Bleeding – Soft tissue injuries.

May: Annual Extrication Drill.

June: Airway Emergencies (BVM, Airway Adjuncts, Albuterol, Epi-Pen).

July: Various Splinting and Joint Immobilization Techniques.

August: TBD

September: Cardiac Emergencies.

October: Spinal Immobilization, KED, Standing Take-downs, Lifting/Moving Patients, Extrication.

November: Medical Emergencies and BLS Drug Protocols.

December: TBD

Schedule subject to change.

It may not be possible to address all NYS BLS protocols in one year hence training is based on high probability incidents. If you have any question/comments or want to train on something not mentioned, please contact:

David Sherman
